

Project Initialization and Planning Phase

Date	02 July 2026
Team ID	XXXXXX
Project Name	Smart Lender – Loan Eligibility Prediction Using Machine Learning
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A loan applicant seeking financial assistance.	Determine whether I am eligible for a loan before applying.	The approval process is time-consuming and depends on multiple financial factors.	My eligibility depends on income, credit history, loan amount, employment status, and other applicant details.	Uncertain about whether my loan application will be approved.
