

Team Involvement in Demonstration

Date	03 July 2026
Team ID	XXXXXX
Project Name	Smart Lender – Loan Eligibility Prediction Using Machine Learning
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the participation and responsibilities during the project demonstration. Although the project was registered as a team project, the development, implementation, testing, documentation, deployment, and demonstration activities were completed by **Pothuri Chandra Sai**.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Pothuri Chandra Sai	Presenter & Developer	Introduction & Problem Statement	Introduced the project objectives, problem statement, motivation, and real-world use case.	Active
2	Pothuri Chandra Sai	Machine Learning Developer	Dataset & Model Development	Explained dataset collection, preprocessing, exploratory data analysis, feature engineering, model training, evaluation, and XGBoost model selection.	Active
3	Pothuri Chandra Sai	Backend Developer	Flask Application & Model Integration	Demonstrated Flask routes, model loading (model.pkl, scaler.pkl), request handling, preprocessing, and prediction workflow.	Active
4	Pothuri Chandra Sai	Frontend Developer	User Interface Demonstration	Demonstrated the Home, Prediction, About, and Result pages with live Approved and Rejected prediction examples.	Active
5	Pothuri Chandra Sai	Tester	Testing & Validation	Explained functional testing,	Active

				performance testing, prediction verification, input validation, and error handling.	
6	Pothuri Chandra Sai	Project Presenter	GitHub, Render Deployment & Documentation	Presented the GitHub repository, project documentation, live Render deployment, future enhancements, and concluded the demonstration.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Pothuri Chandra Sai (Individual Project)
Overall Team Coordination Rating (1-5)	5/5
Any issues during demo	Minor delay while loading the deployed Render application because the free Render service may take a short time to wake up after inactivity.
How issues were resolved	Waited for the application to start, refreshed the page, verified the deployment, and continued the demonstration successfully.
